List of Health Claims

All health claims made must be substantiated by evidence that is relevant to the claims, as laid out in the Guidelines for Claims and Claims Substantiation of Health Supplements and Traditional Medicines. They must be consistent with the scope of a health supplement (HS), traditional medicine (TM), medicated oil, balm (MOB) or medicated plaster respectively.

This list should be used in conjunction with the Guidelines for Claims and Claims Substantiation of Health Supplements and Traditional Medicines.

Dealers may refer to the list of health claims allowed for use in HS, TM, MOB and medicated plasters in the table below.

- Claims used in HS should not be used to imply or refer to any disease or medical condition on the product presentation
- Claims with [Traditionally used as/in/to] are limited for use in TM
- Claims denoted with an asterisk (*) are also allowed for use in MOB and medicated plasters

Dealers should note that whether a claim is acceptable would require consideration of the product materials such as label and advertisement and its context in its entirety.

S/N	Claim
Bone, joint and muscle health	
1	[Traditionally used as] Antispasmodic/spasmolytic
2	[Traditionally used to] Aid/assist/help in the management of muscle sprain/strain
3	[Traditionally used to] Decrease/reduce/relieve mild joint inflammation/swelling*
4	[Traditionally used to] Decrease/reduce/relieve muscle cramps*
5	[Traditionally used to] Decrease/reduce/relieve symptoms of mild arthritis/mild osteoarthritis
6	[Traditionally used to] Decrease/reduce/relieve symptoms of muscle injury/ailments*
7	[Traditionally used to] Decrease/reduce/relieve symptoms of occasional episodes of gout
8	[Traditionally used to] Help decrease/reduce/relieve leg cramps*
9	[Traditionally used to] Help decrease/reduce/relieve mild muscle spasms/twitches
10	[Traditionally used to] Help decrease/reduce/relieve symptoms of muscle sprain/strain*
11	[Traditionally used to] Help enhance/improve/promote joint mobility
12	[Traditionally used to] Help enhance/promote bone healing/repair
13	[Traditionally used to] Maintain/support bone healing/repair
14	A factor in maintaining good cartilage and/or joint health
15	Aid/assist healthy bone development/growth/building
16	Aid/assist muscle development
17	Aid/assist muscle growth
18	Aid/assist/help post exercise recovery

S/N	Claim
19	Contribute to normal collagen formation for normal function of bones
20	Contribute to normal collagen formation for normal function of cartilage
21	Contribute to normal muscle function
22	Decrease/reduce/relieve mild joint stiffness
23	Decrease/reduce/relieve muscle tension/stiffness*
24	Decrease/reduce/relieve muscle tiredness*
25	Enhance the effect of resistance training on muscle strength in adults over age of 55
26	Enhance/improve/promote/increase muscle relaxation
27	Help build strong bones and teeth
28	Help delay fatigue during physical activity
29	Help enhance/improve muscle recovery time
30	Help enhance/improve/promote/increase healthy muscle tone
31	Help enhance/improve/promote/increase muscle fuel burning efficiency
32	Help enhance/improve/promote/increase muscle performance/endurance/stamina
33	Help enhance/improve/promote/increase muscle strength
34	Help enhance/improve/promote/increase muscle strength to improve balance/stability
35	Help enhance/improve/promote/increase physical/exercise performance
36	Help enhance/promote bone health
37	Help enhance/promote bone mass/density
38	Help enhance/promote bone mineralisation
39	Help enhance/promote bone strength
40	Help enhance/promote healthy joint function
41	Help enhance/promote healthy muscle function
42	Help enhance/promote healthy muscle mass
43	Help enhance/promote joint health
44	Help enhance/promote/increase metabolism of (state mineral) in bones
45	Help improve physical performance when used in conjunction with a training regimen
46	Help in the development and maintenance of bones and teeth
47	Help maintain/support bone mineralisation
48	Help maintain/support healthy joint cartilage growth/development/production
49	Help maintain/support joint cartilage health
50	Help reduce occurrence of muscle tension/stiffness
51	Help reduce the loss of bone mineral in postmenopausal women
52	Improve strength/power/performance in repetitive bouts of brief, highly-intense physical activity (e.g. sprints, jumping, resistance training) (by increasing [muscle/intramuscular] [creatine/phosphocreatine/energy] levels)
53	Increase physical performance in successive bursts of short-term, high intensity exercise
54	Increases body/(lean) muscle mass/size when used in conjunction with a resistance training regimen
55	Maintain/support (state mineral) absorption in bones
56	Maintain/support bone health
57	Maintain/support bone mass/density/integrity
58	Maintain/support bone strength

S/N	Claim
59	Maintain/support healthy ligaments
60	Maintain/support healthy muscle contraction function
61	Maintain/support healthy neuromuscular system/function
62	Maintain/support joint health
63	Maintain/support joint mobility/flexibility
64	Maintain/support muscle fuel burning efficiency
65	Maintain/support muscle function
66	Maintain/support muscle health
67	Maintain/support muscle mass
68	Maintain/support muscle performance/endurance/stamina
69	Maintain/support muscle protein stores
70	Maintain/support muscle relaxation*
71	Maintain/support muscle strength
72	Maintain/support muscle strength to reduce strain on joints
73	Maintain/support muscle tone
74	Maintain/support tendon health
75	Support bone flexibility
Brain and nerve health	
76	[Traditionally used as] Brain tonic/Enhance brain health
77	[Traditionally used as] Brain tonic/improve memory and cognition
78	[Traditionally used as] Nerve stimulant/enhance nerve function
79	[Traditionally used as] Nerve tonic
80	[Traditionally used as] Nervine/support nervous system
81	[Traditionally used as] Nervous system relaxant
82	[Traditionally used as] Sleep aid/help promote sleep
83	[Traditionally used to] Decrease/reduce duration of mild migraine
84	[Traditionally used to] Decrease/reduce headache duration
85	[Traditionally used to] Decrease/reduce time to fall asleep
86	[Traditionally used to] Decrease/reduce/relieve headache symptoms*
87	[Traditionally used to] Decrease/reduce/relieve mild dizziness/vertigo
88	[Traditionally used to] Decrease/reduce/relieve mild migraine symptoms
89	[Traditionally used to] Decrease/reduce/relieve nervous tension/unrest
90	[Traditionally used to] Decrease/reduce/relieve restlessness/excess nervous energy
91	[Traditionally used to] Decrease/reduce/relieve sleeplessness
92	[Traditionally used to] Decrease/reduce/relieve symptoms of mild anxiety
93	[Traditionally used to] Decrease/reduce/relieve symptoms of mild sciatica
94	[Traditionally used to] Enhance/improve/promote/increase memory/recall
95	[Traditionally used to] Help decrease/reduce/relieve symptoms of mild tension headache*
96	[Traditionally used to] Help reduce occurrence of mild migraines
97	[Traditionally used to] Help reduce occurrence of symptoms of headaches
98	[Traditionally used to] Help relieve nervousness (nervine)
99	[Traditionally used to] Relieve irritability
100	[Traditionally used to] Relieve nervous problems
101	Aid/assist/help mind relaxation
102	Aid/assist/help synthesis of neurotransmitters

S/N	Claim
103	Aids/assist the body to cope with environmental stress
104	Calm the mind
105	Contribute to alleviation of subjective feelings of jet lag
106	Contribute to normal mental performance
107	Contribute to normal neurotransmission
108	Contribute to normal psychological function
109	Contribute to the reduction of time taken to fall asleep
110	Decrease/reduce mental/cognitive fatigue
111	Decrease/reduce/relieve disturbed/restless sleep
112	Decrease/reduce/relieve mental overactivity
113	Enhance/improve/promote/increase body relaxation
114	Enhance/improve/promote/increase mental alertness/wakefulness
115	Enhance/improve/promote/increase mental endurance/stamina
116	Enhance/improve/promote/increase mind relaxation
117	Enhance/improve/promote/increase sleep quality/deep sleep
118	Enhance/promote/increase healthy sleep patterns
119	Enhance/promote/increase refreshing sleep
120	Help (temporarily) to support/promote mental sharpness/alertness
121	Help establish/restore/reset sleep-wake cycle (circadian rhythm)
122	Help increase the total sleep time (aspect of sleep quality) in people suffering from sleep restriction or altered sleep schedule, (e.g. shift-work and jet lag)
123	Help maintain/support emotional wellbeing
124	Help promote healthy mood balance
125	Help reduce occurrence of symptoms of jet lag
126	Help support cognition
127	Help support cognitive health and/or brain function
128	Maintain/support brain function
129	Maintain/support brain health
130	Maintain/support brain/central nervous system development
131	Maintain/support cognitive development
132	Maintain/support cognitive function/mental function
133	Maintain/support general mental wellbeing
134	Maintain/support healthy sleeping patterns
135	Maintain/support learning and information processing
136	Maintain/support memory/mental recall
137	Maintain/support mental concentration/focus/clarity
138	Maintain/support mental endurance/stamina
139	Maintain/support nerve conduction
140	Maintain/support nervous system function
141	Maintain/support nervous system health
142	Maintain/support neuroendocrine function
143	Maintain/support neuromuscular function
144	Maintain/support refreshing sleep
145	Nourish the brain
146	Nourish the nervous system
147	Soothe/calm nerves

S/N	Claim
148	Support healthy body stress recovery
149	Support healthy emotional/mood balance
150	Support healthy stress response in the body
Gastrointestinal health	
151	(An) (essential) amino acid(s) involved in muscle protein synthesis
152	(An) (non-essential) amino acid(s) involved in muscle protein synthesis
153	[Traditionally used as] A demulcent to help soothe irritation/inflammation of the gastrointestinal tract
154	[Traditionally used as] An antiparasitic
155	[Traditionally used as] Aperient/laxative
156	[Traditionally used as] Bitter tonic/stimulate gastric secretions
157	[Traditionally used as] Bowel tonic
158	[Traditionally used as] Digestive tonic/Improve digestive weakness
159	[Traditionally used as] Liver tonic/Enhance liver health
160	[Traditionally used as] Stimulant laxative
161	[Traditionally used to] Aid digestion
162	[Traditionally used to] Decrease/reduce food stagnation associated with poor or sluggish digestion
163	[Traditionally used to] Decrease/reduce loose stools
164	[Traditionally used to] Decrease/reduce/relieve abdominal bloating/distention
165	[Traditionally used to] Decrease/reduce/relieve abdominal cramping*
166	[Traditionally used to] Decrease/reduce/relieve abdominal feeling of fullness
167	[Traditionally used to] Decrease/reduce/relieve abdominal spasm
168	[Traditionally used to] Decrease/reduce/relieve bowel discomfort
169	[Traditionally used to] Decrease/reduce/relieve colic (wind/gas pain)
170	[Traditionally used to] Decrease/reduce/relieve constipation
171	[Traditionally used to] Decrease/reduce/relieve diarrhoea
172	[Traditionally used to] Decrease/reduce/relieve digestive spasms
173	[Traditionally used to] Decrease/reduce/relieve excess intestinal gas
174	[Traditionally used to] Decrease/reduce/relieve flatulence/carminative
175	[Traditionally used to] Decrease/reduce/relieve hiccups
176	[Traditionally used to] Decrease/reduce/relieve loss of appetite
177	[Traditionally used to] Decrease/reduce/relieve nausea
178	[Traditionally used to] Decrease/reduce/relieve symptoms of heartburn
179	[Traditionally used to] Decrease/reduce/relieve symptoms of indigestion/dyspepsia
180	[Traditionally used to] Decrease/reduce/relieve symptoms of motion/travel/sea sickness
181	[Traditionally used to] Decrease/reduce/relieve symptoms of nervous indigestion
182	[Traditionally used to] Decrease/reduce/relieve symptoms of stomach upsets
183	[Traditionally used to] Decrease/reduce/relieve vomiting
184	[Traditionally used to] Enhance digestive fire and absorption
185	[Traditionally used to] Help decrease/reduce/relieve mild gastrointestinal tract inflammation

S/N	Claim
186	[Traditionally used to] Help decrease/reduce/relieve symptoms of infant colic
187	[Traditionally used to] Help decrease/reduce/relieve symptoms of mild gastritis
188	[Traditionally used to] Help decrease/reduce/relieve symptoms of traveller's diarrhoea
189	[Traditionally used to] Help enhance/improve/promote/increase bile secretion/flow
190	[Traditionally used to] Help reduce occurrence of abdominal bloating
191	[Traditionally used to] Help reduce occurrence of abdominal spasm
192	[Traditionally used to] Help reduce occurrence of constipation
193	[Traditionally used to] Help reduce occurrence of diarrhoea
194	[Traditionally used to] Help reduce occurrence of symptoms of indigestion/dyspepsia
195	[Traditionally used to] Help reduce occurrence of symptoms of motion/travel/sea sickness
196	[Traditionally used to] Help reduce occurrence of symptoms of traveller's diarrhoea
197	[Traditionally used to] Help relieve digestive disturbances/dyspepsia
198	[Traditionally used to] Help relieve digestive upset/indigestion
199	[Traditionally used to] Help relieve flatulent dyspepsia (carminative)
200	[Traditionally used to] Help relieve inflammatory conditions of the digestive system
201	[Traditionally used to] Help relieve nervous dyspepsia / to help digestion in cases of nervousness and/or stress
202	[Traditionally used to] Help relieve symptoms such as heartburn and indigestion associated with hyperacidity/dyspepsia
203	[Traditionally used to] Help remove intestinal threadworms/pinworms
204	[Traditionally used to] Help stimulate appetite
205	[Traditionally used to] Improve digestion
206	[Traditionally used to] improve/promote healthy appetite
207	[Traditionally used to] Promote bile flow from gall bladder
208	[Traditionally used to] Promote saliva production
209	[Traditionally used to] Provide gentle relief of constipation and/or irregularity
210	[Traditionally used to] Reduce occurrence of excess intestinal wind/gas
211	[Traditionally used to] Reduce occurrence of nausea/vomiting
212	[Traditionally used to] Reduce stomach acid
213	[Traditionally used to] Relieve dry stools
214	[Traditionally used to] Relieve excessive belching
215	[Traditionally used to] Soothe gastro-intestinal tract mucous membranes
216	[Traditionally used to] Stimulate digestion
217	[Traditionally used to] Tonify/nourish/strengthen/replenish liver
218	[Traditionally used] For bowel complaints such as indigestion, flatulency, diarrhea and vomiting
219	Aid/assist digestion of glucose/sugar/carbohydrates
220	Aid/assist digestion of lactose
221	Aid/assist digestion/breakdown of dietary fat
222	Aid/assist expulsion of intestinal gas

S/N	Claim
223	Aid/assist fat distribution and assimilation in the digestive system
224	Aid/assist fat emulsification in the digestive system
225	Aid/assist natural cleansing/detoxification processes of the gastrointestinal system/gut
226	Aid/assist/help digestion of (state nutrient)
227	Aid/assist/help digestion of fats/fatty acids/triglycerides/lipid
228	Aid/assist/help elimination of dietary fat
229	Aid/assist/help glucose/sugar/carbohydrate metabolism
230	Aid/assist/help in the management of carbohydrate cravings
231	Aid/assist/help in the management of food cravings
232	Aid/assist/help in the management of sugar cravings
233	Aid/assist/help protein synthesis in the body
234	An essential amino acid involved in protein synthesis
235	Contribute to an acceleration of intestinal transit
236	Contribute to increase in faecal bulk
237	Contribute to maintenance of normal liver function
238	Contribute to maintenance of normal triglyceride levels
239	Contribute to normal amino acid synthesis
240	Contribute to normal bowel function
241	Contribute to normal bowel function by increasing stool frequency
242	Contribute to normal digestion by production of hydrochloric acid in the stomach
243	Contribute to normal function of digestive enzymes
244	Contribute to normal lipid metabolism
245	Contribute to normal macronutrient metabolism
246	Contribute to normal metabolism of fatty acids
247	Contribute to normal protein and glycogen metabolism
248	Decrease/reduce carbohydrate cravings
249	Digestive aid
250	Digestive enzyme/lactase to assist in the digestion of foods containing lactose (e.g. dairy foods, milk)
251	Enhance the assimilation/transportation of nutrients
252	Enhance/ promote stomach health
253	Enhance/improve/promote/increase bowel regularity
254	Enhance/improve/promote/increase bowel waste elimination
255	Enhance/improve/promote/increase nutrient uptake
256	Enhance/promote healthy digestion
257	Essential amino acids histidine, isoleucine, leucine, lysine, methionine, phenylalanine, threonine, valine for the maintenance of good health and involved in protein synthesis
258	Help convert (state food) into energy
259	Help decrease bloating after high caloric, high fat meal
260	Help decrease/reduce dietary fat absorption in digestive system
261	Help delay stomach (gastric) emptying
262	Help digest protein
263	Help enhance/improve/promote taste sensation

S/N	Claim
264	Help enhance/improve/promote/increase healthy digestive system flora/good bacteria growth
265	Help enhance/improve/promote/increase intestinal good/beneficial/friendly bacteria growth
266	Help enhance/improve/promote/increase intestinal transit time
267	Help enhance/promote gallbladder health
268	Help enhance/promote gastrointestinal system health
269	Help enhance/promote gastrointestinal system mucosa health
270	Help enhance/promote healthy colon function
271	Help enhance/promote healthy digestive system function
272	Help enhance/promote healthy gallbladder function
273	Help enhance/promote healthy liver function
274	Help enhance/promote healthy small intestine function
275	Help maintain the body's ability to metabolize nutrients
276	Help maintain/support bile secretion/flow
277	Help maintain/support good/beneficial/friendly gut flora during antibiotic use
278	Help promote healthy glucose metabolism
279	Help reduce carbohydrate metabolism
280	Help reduce gas production/flatulence following a meal rich in oligosaccharides/fermentable carbohydrates (such as vegetables, pulses/legumes/beans and whole grains)
281	Help regulate appetite
282	Help restore good/beneficial/friendly gut flora after antibiotic use
283	Help restore good/beneficial/friendly intestinal/gut/bowel flora
284	Help stimulate the growth of healthy bacteria (such as bifidobacteria) in the intestine/gut
285	Help stimulate/increase digestive enzymes
286	Help support and maintain a healthy digestive system
287	Help support digestive system health after periods of physical stress
288	Help support fat metabolism
289	Help support fat oxidation
290	Help suppress/fight against harmful bacteria in the digestive system, thereby helping to maintain a healthy digestive system
291	Help the body to metabolize proteins
292	Improve lactose digestion in individuals who have difficulty digesting lactose
293	Increase bowel movements by increasing stool bulk
294	Maintain/support bile production
295	Maintain/support bowel regularity
296	Maintain/support bowel regularity by increasing stool bulk
297	Maintain/support digestion/assimilation of nutrients
298	Maintain/support digestive system health
299	Maintain/support gallbladder function
300	Maintain/support gallbladder health
301	Maintain/support gastrointestinal mucosal membrane health
302	Maintain/support gastrointestinal system health
303	Maintain/support good/beneficial/friendly bacteria adherence to intestinal mucosa
304	Maintain/support healthy appetite

S/N	Claim
305	Maintain/support healthy bowel/colon function
306	Maintain/support healthy digestion
307	Maintain/support healthy digestive system function
308	Maintain/support healthy gastrointestinal function
309	Maintain/support healthy liver function
310	Maintain/support healthy mucous linings of the digestive system
311	Maintain/support healthy small intestine function
312	Maintain/support intestinal good/beneficial/friendly flora
313	Maintain/support intestinal health
314	Maintain/support intestinal transit time
315	Maintain/support liver health
316	Maintain/support natural cleansing/detoxification processes of the gastrointestinal system/gut
317	Maintain/support small intestine good/beneficial/friendly flora
318	Maintain/support small intestine health
319	Maintain/support stomach function
320	Maintain/support stomach health
321	Maintain/support taste sensation
322	Non-essential amino acids (alanine, arginine, aspartic acid, glutamic acid, glycine, proline, serine, tyrosine) involved in protein synthesis
323	Nourish good/beneficial/friendly intestinal flora
324	Promote growth of good Bifidus bacteria to help maintain a healthy digestive system
325	Promote/enhance feeling of satiety
326	Promote/increase bowel evacuation
327	Provide support for healthy glucose metabolism
328	Reduce/decrease/supress hunger/appetite
329	Relieve digestive discomfort
330	Soften stool to ease bowel motions
331	Stimulate bifidobacteria, resulting in a significant increase of the beneficial bifidobacteria in the intestinal tract.
332	Stimulate/increase digestive gastric hydrochloric acid secretion
General health, including eye, hair and nail health	
333	[Traditionally used as] A tonic to help relieve general weakness/fatigue and/or to aid during recovery
334	[Traditionally used as] Alterative/blood cleanser/depurative/purifier
335	[Traditionally used as] Astringent/tightens tissues
336	[Traditionally used as] Body tonic
337	[Traditionally used as] Nutritive tonic
338	[Traditionally used as] Rejuvenating tonic
339	[Traditionally used as] Restorative tonic
340	[Traditionally used in] Blood detoxification
341	[Traditionally used to] Aid/assist gum healing
342	[Traditionally used to] Aid/assist in the healing of minor body tissue injuries
343	[Traditionally used to] Decrease/reduce ear irritation/inflammation
344	[Traditionally used to] Decrease/reduce hair loss/thinning
345	[Traditionally used to] Decrease/reduce halitosis/bad breath

S/N	Claim
346	[Traditionally used to] Decrease/reduce/relieve bleeding gums
347	[Traditionally used to] Decrease/reduce/relieve cracks in the corner of the mouth
348	[Traditionally used to] Decrease/reduce/relieve excessive perspiration/sweating
349	[Traditionally used to] Decrease/reduce/relieve mouth/oral mucosa mild inflammation
350	[Traditionally used to] Decrease/reduce/relieve scalp flaking/scaling
351	[Traditionally used to] Decrease/reduce/relieve scalp itching/irritation/redness*
352	[Traditionally used to] Decrease/reduce/relieve spontaneous sweating
353	[Traditionally used to] Decrease/reduce/relieve symptoms of boils
354	[Traditionally used to] Decrease/reduce/relieve symptoms of chickenpox
355	[Traditionally used to] Decrease/reduce/relieve symptoms of chilblains
356	[Traditionally used to] Decrease/reduce/relieve symptoms of dandruff
357	[Traditionally used to] Decrease/reduce/relieve symptoms of facial cold sores
358	[Traditionally used to] Decrease/reduce/relieve symptoms of insect bite/sting*
359	[Traditionally used to] Decrease/reduce/relieve symptoms of mild mouth ulcers
360	[Traditionally used to] Decrease/reduce/relieve symptoms of soft tissue trauma
361	[Traditionally used to] Decrease/reduce/relieve toothache
362	[Traditionally used to] Decrease/reduce/relieve watery eyes/excessive lacrimation
363	[Traditionally used to] Enhance/improve/promote healing of bruises
364	[Traditionally used to] Enhance/improve/promote healing of facial cold sores
365	[Traditionally used to] Enhance/improve/promote/increase hair growth
366	[Traditionally used to] Enhance/improve/promote/increase hair strength/thickness
367	[Traditionally used to] Enhance/promote sweating/perspiration
368	[Traditionally used to] Help decrease/reduce/relieve heat sensations in the extremities
369	[Traditionally used to] Help decrease/reduce/relieve symptoms of nail mild fungal infection
370	[Traditionally used to] Help enhance/promote body tissue repair/regeneration
371	[Traditionally used to] Help prevent tooth decay/dental carries/cavities in conjunction with good oral hygiene
372	[Traditionally used to] Help reduce occurrence of symptoms of dandruff
373	[Traditionally used to] Help relieve excessive lacrimation
374	[Traditionally used to] Help relieve mild irritations of the mucous membranes of the mouth
375	[Traditionally used to] Maintain/support body tissue repair/regeneration
376	[Traditionally used to] Maintain/support hair growth
377	[Traditionally used to] Maintain/support hair strength/thickness
378	[Traditionally used to] Maintain/support spleen health

S/N	Claim
379	[Traditionally used to] Pacify burning sensations
380	[Traditionally used to] Reduce toxins
381	[Traditionally used to] Relieve dry mouth
382	[Traditionally used to] Relieve eye discomfort
383	[Traditionally used to] Relieve eye redness
384	[Traditionally used to] Relieve eye soreness
385	[Traditionally used to] Relieve inflammation
386	[Traditionally used to] Relieve itchy ears
387	[Traditionally used to] Relieve itchy eyes
388	[Traditionally used to] Relieve mild fever/reduce body temperature/body cooling
389	[Traditionally used to] Relieve mild tissue oedema
390	[Traditionally used to] Relieve oral complaints
391	[Traditionally used to] Relieve sore tongue
392	[Traditionally used to] Relieve tongue dryness
393	[Traditionally used to] Restore organ health
394	[Traditionally used to] Soothe irritated tissues
395	[Traditionally used to] Soothe/relieve mouth/oral irritation
396	[Traditionally used to] Temporarily relieve mild fluid retention
397	[Traditionally used to] Treat ringworm
398	[Traditionally used] For the temporary relief of eye discomfort due to dryness of the eye or to exposure to wind or sun
399	A factor in the maintenance of good health
400	Aid/assist body waste elimination
401	Aid/assist excretion of metabolic waste products
402	Aid/assist eye adaption to variations in light intensity/night vision
403	Aid/assist gum development
404	Aid/assist nail growth
405	Aid/assist natural body cleansing/detoxification processes
406	Aid/assist teeth development
407	Aid/assist/help connective tissue production/formation
408	Aid/assist/help/maintain healthy hair follicles
409	An antioxidant that protects the fat in body tissues from oxidation
410	Antioxidants/Provides antioxidants that help fight/protect (cell) against/reduce (the oxidative effects of/the oxidative damage caused by/cell damage caused by) free radicals
411	Contribute to maintenance of normal connective tissues
412	Contribute to maintenance of normal hair
413	Contribute to maintenance of normal mucous membranes
414	Contribute to maintenance of normal nails
415	Contribute to maintenance of normal teeth
416	Contribute to maintenance of normal vision
417	Contribute to maintenance of tooth mineralisation
418	Contribute to normal acid-base metabolism
419	Contribute to normal cell function and replication
420	Contribute to normal collagen formation for normal function of gums
421	Contribute to normal collagen formation for normal function of teeth

S/N	Claim
422	Contribute to normal cysteine synthesis
423	Contribute to normal DNA synthesis
424	Contribute to normal energy-yielding metabolism
425	Contribute to normal function of cell membranes
426	Contribute to normal functioning of connective tissue
427	Contribute to normal growth of children
428	Contribute to normal hair pigmentation
429	Contribute to normal homocysteine metabolism
430	Contribute to normal physiological function
431	Contribute to normal sulphur amino acid metabolism
432	Contribute to normal visual development of infants
433	Contribute to protection of cells from oxidative stress
434	Decrease/reduce nail brittleness/splitting/chipping
435	Decrease/reduce/relieve eye strain
436	Decrease/reduce/relieve visual fatigue
437	Enhance/improve/promote/increase hair health
438	Enhance/improve/promote/increase nail health/strength/thickness
439	Enhance/promote energy levels
440	Enhance/promote/physical endurance/capacity/stamina
441	Help enhance/promote collagen formation
442	Help enhance/promote connective tissue health
443	Help enhance/promote general health and wellbeing
444	Help enhance/promote gum health
445	Help enhance/promote healthy growth and development
446	Help enhance/promote healthy teeth enamel
447	Help enhance/promote teeth health
448	Help enhance/promote teeth strength
449	Help enhance/promote/increase vitality
450	Help in collagen formation
451	Help in collagen formation to maintain healthy bones, cartilage, teeth and/or gums
452	Help in connective tissue formation
453	Help in energy metabolism in the body
454	Help in energy metabolism, tissue formation and bone development
455	Help in energy production
456	Help in the development and maintenance of bones, cartilage, teeth and/or gums
457	Help in the development and maintenance of night vision
458	Help in the development and maintenance of teeth
459	Help in tissue formation
460	Help maintain healthy bones, hair, nail and/or skin
461	Help maintain healthy hair, nail, mucous membranes and/or skin
462	Help maintain/support body's natural channels of elimination
463	Help maintain/support eye macula health
464	Help maintain/support eye retina health
465	Help maintain/support healthy acid/alkali balance in the body
466	Help maintain/support healthy eye development

S/N	Claim
467	Help maintain/support healthy vision development
468	Help maintain/support hearing development
469	Help normal growth
470	Help normal growth and development
471	Help restore body electrolyte balance
472	Help support healthy development of the brain and/or, eyes, and/or nerves
473	Maintain good health
474	Maintain healthy hair, skin and nails
475	Maintain/support body electrolyte balance
476	Maintain/support body mucous membrane health
477	Maintain/support body waste elimination
478	Maintain/support collagen formation
479	Maintain/support collagen health
480	Maintain/support connective tissue health
481	Maintain/support dental/periodontal health
482	Maintain/support ear health
483	Maintain/support energy levels
484	Maintain/support energy production
485	Maintain/support eye health
486	Maintain/support general health and wellbeing
487	Maintain/support gum health
488	Maintain/support hair health
489	Maintain/support healthy body organ functions
490	Maintain/support healthy body tissues
491	Maintain/support healthy ear function
492	Maintain/support healthy eye function
493	Maintain/support healthy eyesight/vision
494	Maintain/support healthy growth and development
495	Maintain/support healthy hearing
496	Maintain/support healthy mouth flora
497	Maintain/support healthy teeth
498	Maintain/support nail health/strength/thickness
499	Maintain/support natural body cleansing/detoxification processes
500	Maintain/support oral health
501	Maintain/support oral mucous membrane health
502	Maintain/support physical endurance/capacity/stamina
503	Maintain/support scalp health
504	Maintain/support smell sensation
505	Maintain/support teeth enamel health
506	Maintain/support teeth mineralisation
507	Maintain/support teeth strength
508	Maintain/support vitality
509	Nourish the body
510	Reduce free radicals formed in the body
511	Relieve weariness/tiredness/fatigue/feeling of weakness
Heart and circulatory health	
512	[Traditionally used as] Blood tonic/Enhance blood health

S/N	Claim
513	[Traditionally used as] Cardiotonic/strengthen heart
514	[Traditionally used to] Decrease/reduce duration of symptoms of haemorrhoids
515	[Traditionally used to] Decrease/reduce/relieve discomfort associated with haemorrhoids
516	[Traditionally used to] Decrease/reduce/relieve minor bleeding associated with haemorrhoids
517	[Traditionally used to] Decrease/reduce/relieve swelling associated with haemorrhoids
518	[Traditionally used to] Decrease/reduce/relieve symptoms of haemorrhoids
519	[Traditionally used to] Help reduce/decrease/relieve mild nose bleeds
520	[Traditionally used to] Help treat varicose veins
521	[Traditionally used to] Relieve cold hands and feet/limbs
522	[Traditionally used to] Stimulate blood flow to skin
523	Aid/assist healthy red blood cell production
524	Aid/assist/help in the maintenance of blood levels of oxygen
525	Contribute to maintenance of normal red blood cells
526	Contribute to normal blood clotting
527	Contribute to normal blood formation
528	Contribute to normal collagen formation for normal function of blood vessels
529	Contribute to normal formation of red blood cells and haemoglobin
530	Contribute to normal oxygen transport in the body
531	Contribute to normal red blood cell formation
532	Decrease/reduce appearance of mild varicose veins
533	Help enhance/improve/promote blood circulation to the peripheral areas of the body
534	Help enhance/promote artery health
535	Help enhance/promote blood capillary health
536	Help enhance/promote blood vessel health
537	Help enhance/promote healthy blood circulation
538	Help enhance/promote red blood cell health
539	Help form red blood cells
540	Help form red blood cells and help in their proper function
541	Help in the maintenance of healthy blood lipids/blood fats
542	Help maintain healthy blood pressure levels
543	Help maintain healthy/normal blood cholesterol levels
544	Help maintain heart muscle function
545	Help maintain normal red blood cells
546	Help maintain/support haemoglobin formation/synthesis
547	Help maintain/support healthy/normal heart function
548	Help maintain/support transport of oxygen in the body
549	Help reduce intestinal absorption of cholesterol from dietary sources
550	Help support cardiovascular function
551	Maintain/support artery health
552	Maintain/support blood capillary health
553	Maintain/support blood circulation/flow to the peripheral areas of the body
554	Maintain/support blood health

S/N	Claim
555	Maintain/support blood vessel health
556	Maintain/support cardiovascular system health
557	Maintain/support healthy blood circulation
558	Maintain/support healthy cardiovascular system function
559	Maintain/support healthy lymphatic system
560	Maintain/support heart health
561	Maintain/support red blood cell health
562	Nourish the heart
Hormonal and reproductive health	
563	Aid/assist thyroid hormone production
564	Contribute to normal fertility and reproduction
565	Help maintain/support healthy blood sugar/glucose
566	Help support emotional aspects of sexual health
567	Help support/maintain healthy blood glucose levels
568	Maintain/support adrenal gland health
569	Maintain/support healthy adrenal gland function
570	Maintain/support healthy reproductive hormones
571	Maintain/support healthy thyroid gland function
572	Maintain/support healthy thyroid hormones
573	Maintain/support reproductive system health
574	Maintain/support thyroid gland health
Immune health	
575	[Traditionally used to] Decrease/reduce/relieve symptoms of allergic rhinitis
576	[Traditionally used to] Decrease/reduce/relieve symptoms of hayfever
577	[Traditionally used to] Help decrease/reduce/relieve symptoms of mild allergies
578	[Traditionally used to] Help decrease/reduce/relieve symptoms of seasonal allergies
579	[Traditionally used to] Help support immune function within the upper respiratory tract
580	Contribute to maintenance of normal function of the immune system during and after intense physical exercise
581	Enhance/improve/promote immune defence/immunity
582	Help enhance/improve/promote immune system function
583	Help in the normal function of the immune system
584	Help maintain eyesight/skin/membranes/(and) immune function (health)
585	Help provide eyesight/skin/membranes/(and) immune function support
586	Help stimulate a healthy immune system response
587	Help support immune system health after periods of physical stress
588	Maintain/support healthy gastrointestinal immune function
589	Maintain/support healthy immune system function
590	Maintain/support immune system health
Male vitality enhancement	
591	[Traditionally used as] Male tonic
592	[Traditionally used to] Increase semen
593	Contribute to normal spermatogenesis
594	Help enhance/promote prostate health

S/N	Claim
595	Help maintain/support healthy prostate function
596	Help maintain/support testosterone formation/synthesis
597	Maintain/support healthy libido
598	Maintain/support healthy sexual function
599	Maintain/support prostate health
600	Maintain/support semen health
601	Maintain/support sperm health
602	Maintain/support sperm motility
603	Maintain/support sperm production
604	Maintain/support testosterone level
Pain relief	
605	[Traditionally used to] Decrease/reduce/relieve abdominal griping pain*
606	[Traditionally used to] Decrease/reduce/relieve abdominal pain/discomfort*
607	[Traditionally used to] Decrease/reduce/relieve breast pain/tenderness associated with premenstrual tension
608	[Traditionally used to] Decrease/reduce/relieve bruise pain*
609	[Traditionally used to] Decrease/reduce/relieve gastrointestinal pain
610	[Traditionally used to] Decrease/reduce/relieve gum soreness/pain/discomfort
611	[Traditionally used to] Decrease/reduce/relieve menstruation pain/dysmenorrhoea*
612	[Traditionally used to] Decrease/reduce/relieve mild joint aches and pains*
613	[Traditionally used to] Decrease/reduce/relieve mild joint pain/soreness*
614	[Traditionally used to] Decrease/reduce/relieve mild nerve pain/neuralgia
615	[Traditionally used to] Decrease/reduce/relieve mild rheumatic aches and pains*
616	[Traditionally used to] Decrease/reduce/relieve muscle pain/ache/soreness*
617	[Traditionally used to] Decrease/reduce/relieve teething/tooth pain
618	[Traditionally used to] Help relieve abdominal pain and burning sensation in the stomach (demulcent)
619	[Traditionally used to] Help relieve pain and/or inflammation in muscles and joints (e.g. sprains, bruises, joint pain)*
620	[Traditionally used to] Relieve pain*
621	[Traditionally used] For short-term relief of low back pain*
Respiratory health	
622	[Traditionally used as] An expectorant to help relieve chest complaints, such as mucus buildup (catarrhs), coughs and bronchitis
623	[Traditionally used as] An expectorant to help relieve the symptoms of bronchitis and mucus buildup of the (upper) respiratory tract (anti-catarrh)
624	[Traditionally used as] Cough suppressant
625	[Traditionally used as] Expectorant/clear respiratory tract mucous
626	[Traditionally used as] Lung tonic/Enhance lung health
627	[Traditionally used to] Decrease/reduce excess chest phlegm
628	[Traditionally used to] Decrease/reduce excess mucous
629	[Traditionally used to] Decrease/reduce/relieve bronchial mucous congestion
630	[Traditionally used to] Decrease/reduce/relieve chills associated with common cold

S/N	Claim
631	[Traditionally used to] Decrease/reduce/relieve cough
632	[Traditionally used to] Decrease/reduce/relieve itchy throat
633	[Traditionally used to] Decrease/reduce/relieve mild bronchial cough
634	[Traditionally used to] Decrease/reduce/relieve mild bronchial irritation
635	[Traditionally used to] Decrease/reduce/relieve mild throat inflammation
636	[Traditionally used to] Decrease/reduce/relieve mild upper respiratory tract congestion
637	[Traditionally used to] Decrease/reduce/relieve sneezing
638	[Traditionally used to] Decrease/reduce/relieve symptoms of common cold
639	[Traditionally used to] Decrease/reduce/relieve symptoms of common colds and flu
640	[Traditionally used to] Decrease/reduce/relieve symptoms of head cold
641	[Traditionally used to] Decrease/reduce/relieve symptoms of laryngitis
642	[Traditionally used to] Decrease/reduce/relieve symptoms of mild throat infection
643	[Traditionally used to] Decrease/reduce/relieve symptoms of mild tonsillitis
644	[Traditionally used to] Decrease/reduce/relieve symptoms of sinusitis
645	[Traditionally used to] Decrease/reduce/relieve thirstiness associated with common cold
646	[Traditionally used to] Decrease/reduce/relieve throat irritation
647	[Traditionally used to] Decrease/reduce/relieve throat mucous membrane irritation/inflammation
648	[Traditionally used to] Enhance/improve/promote/increase cough productivity
649	[Traditionally used to] Help decrease/reduce/relieve mild swelling of the glands associated with common cold
650	[Traditionally used to] Help decrease/reduce/relieve nasal itching
651	[Traditionally used to] Help relieve sore throat and/or other mouth and throat infections
652	[Traditionally used to] Help soothe respiratory tract
653	[Traditionally used to] Loosen chest phlegm
654	[Traditionally used to] Loosen respiratory tract mucous
655	[Traditionally used to] Provide relief of the inflammation of nose and throat mucosa (such as sore throat), gingivitis and (aphthous) ulcer/canker sore
656	[Traditionally used to] Reduce duration of symptoms of laryngitis
657	[Traditionally used to] Reduce duration of symptoms of mild tonsillitis
658	[Traditionally used to] Relieve dry nose
659	[Traditionally used to] Relieve dry throat
660	[Traditionally used to] Relieve dry unproductive cough
661	[Traditionally used to] Relieve hoarseness of voice
662	[Traditionally used to] Relieve itchy throat
663	[Traditionally used to] Relieve loss of voice
664	[Traditionally used to] Relieve nasal congestion*
665	[Traditionally used to] Relieve runny/dripping nose
666	[Traditionally used to] Relieve symptoms of mild upper respiratory tract infections
667	[Traditionally used to] Relieve symptoms of sore throat/pharyngitis

S/N	Claim
668	[Traditionally used to] Soothe respiratory tract mucous membranes/mucous tissue
669	[Traditionally used to] Unblock/clear nasal passages
670	[Traditionally used] (as a demulcent) to relieve the irritation of the oral and pharyngeal mucosa and associated dry cough
671	Maintain/support healthy mucous membranes/mucous tissue of the respiratory tract
672	Maintain/support lung health
Skin health	
673	[Traditionally used as] Antiseptic for minor cuts and abrasions
674	[Traditionally used as] Counterirritant*
675	[Traditionally used to] Cleanse minor skin wound/cuts/scratches/abrasions
676	[Traditionally used to] Decrease/reduce/relieve blisters
677	[Traditionally used to] Decrease/reduce/relieve bruise swelling*
678	[Traditionally used to] Decrease/reduce/relieve itchy/prickling skin associated with mild eczema/dermatitis*
679	[Traditionally used to] Decrease/reduce/relieve oily skin
680	[Traditionally used to] Decrease/reduce/relieve pimples
681	[Traditionally used to] Decrease/reduce/relieve prickly heat skin rash
682	[Traditionally used to] Decrease/reduce/relieve skin burning/itching associated with athlete's foot/tinea*
683	[Traditionally used to] Decrease/reduce/relieve skin chafing
684	[Traditionally used to] Decrease/reduce/relieve skin dryness
685	[Traditionally used to] Decrease/reduce/relieve skin irritation*
686	[Traditionally used to] Decrease/reduce/relieve skin peeling/cracking
687	[Traditionally used to] Decrease/reduce/relieve skin redness*
688	[Traditionally used to] Decrease/reduce/relieve skin scaling/crusty skin
689	[Traditionally used to] Decrease/reduce/relieve symptoms of athlete's foot/tinea
690	[Traditionally used to] Decrease/reduce/relieve symptoms of mild eczema/dermatitis
691	[Traditionally used to] Decrease/reduce/relieve symptoms of mild psoriasis
692	[Traditionally used to] Decrease/reduce/relieve symptoms of mild, superficial skin fungal infections
693	[Traditionally used to] Enhance/improve healing of minor skin wound/cuts/scratches/abrasions
694	[Traditionally used to] Enhance/improve/promote skin repair/healing
695	[Traditionally used to] Help decrease/reduce/relieve symptoms of minor skin wounds (cuts, scratches and abrasions)*
696	[Traditionally used to] Help heal minor skin wounds, burns, irritations and local inflammations
697	[Traditionally used to] Help healing of mild skin burn/sunburns
698	[Traditionally used to] Help reduce occurrence of pimples
699	[Traditionally used to] Help reduce occurrence of symptoms of acne
700	[Traditionally used to] Help reduce occurrence of symptoms of eczema/dermatitis
701	[Traditionally used to] Help reduce/relieve warts
702	[Traditionally used to] Improve skin ailments

S/N	Claim
703	[Traditionally used to] Maintain/support skin repair/healing/regeneration
704	[Traditionally used to] Relieve itchy skin*
705	[Traditionally used to] Relieve minor skin eruptions
706	[Traditionally used to] Relieve red skin rash
707	[Traditionally used to] Relieve skin ailments
708	[Traditionally used to] Relieve symptoms of acne
709	[Traditionally used to] Soothe skin*
710	[Traditionally used to] Soothe/relieve heat rash
711	[Traditionally used to] Soothe/relieve mild skin burn/sunburns*
712	[Traditionally used to] Soothe/relieve skin inflammation*
713	Contribute to maintenance of normal skin
714	Contribute to normal collagen formation for normal function of skin
715	Contribute to normal skin pigmentation
716	Healthy skin and/or mucous membranes support
717	Help enhance/improve skin elasticity
718	Help enhance/improve skin internal structure
719	Help enhance/improve skin strength
720	Help enhance/improve/promote/increase skin firmness
721	Help enhance/improve/promote/increase skin hydration
722	Help enhance/promote skin health
723	Help maintain/support skin pH balance
724	Maintain healthy skin
725	Maintain/support skin elasticity
726	Maintain/support skin firmness
727	Maintain/support skin health
728	Maintain/support skin hydration
729	Maintain/support skin integrity/structure
730	Maintain/support wound healing
Urogenital health	
731	[Traditionally used as] A diuretic
732	[Traditionally used as] Bladder tonic/Enhance bladder health
733	[Traditionally used as] Kidney tonic
734	[Traditionally used as] Renal tonic/Enhance bladder health
735	[Traditionally used to] Decrease/reduce/relieve urinary incontinence associated with medically diagnosed overactive bladder
736	[Traditionally used to] Enhance/promote/increase urine output
737	[Traditionally used to] Help decrease/reduce/relieve symptoms of medically diagnosed cystitis
738	[Traditionally used to] Help relieve difficult/painful urination
739	[Traditionally used to] Maintain/support healthy urine output
740	[Traditionally used to] Relieve urinary frequency
741	Help enhance/promote bladder health
742	Help enhance/promote healthy urogenital flora
743	Maintain/support bladder health
744	Maintain/support healthy bladder function
745	Maintain/support healthy urogenital flora
746	Maintain/support kidney function

S/N	Claim
747	Maintain/support kidney health
748	Maintain/support urinary tract function
749	Maintain/support urinary tract health
750	Maintain/support urogenital health
Vitamin and mineral supplementation	
751	Aid/assist/help metabolism of (state vitamin/mineral/nutrient)
752	Aid/assist/help synthesis of (insert vitamin) in the body
753	Beta-carotene, a provitamin A, to help maintain eyesight, skin, membranes and immune function
754	Cobalt is a structural component of vitamin B12 that help maintain the body's ability to metabolize nutrients
755	Contribute to normal blood calcium levels
756	Contribute to normal metabolism of Vitamin A
757	Contribute to normal synthesis and metabolism of steroid hormones, vitamin D and some neurotransmitters
758	Enhance/improve/promote/increase (state vitamin/mineral/nutrient) levels in the body
759	Help enhance/promote/increase absorption of dietary (state vitamin/mineral/nutrient)
760	Help enhance/promote/increase body utilisation of (state mineral/vitamin/nutrient)
761	Help in the absorption and use of calcium and phosphorus
762	Help maintain normal iron transport in the body
763	Help maintain normal metabolism of iron
764	Help maintain/support cellular uptake of (state vitamin/mineral/nutrient)
765	Helps prevent dietary (state vitamin/mineral/nutrient) deficiency
766	Increases iron absorption
767	Maintain/support (state vitamin/mineral) within normal range
768	Maintain/support (state vitamin/mineral/nutrient) levels in the body
769	Maintain/support absorption of dietary (state vitamin/mineral/nutrient)
770	Provitamin A/vitamin A to help in the development and maintenance of bones
771	Provitamin A/vitamin A to help maintain eyesight, skin, membranes and immune function
772	Vitamin D help calcium absorption
773	Vitamin(s)/mineral(s)/vitamin(s) and mineral(s) to support biological functions which play a key role in the maintenance of good health
774	Vitamin(s)/mineral(s)/vitamin(s) and mineral(s), a factor/factors in normal growth and development
775	Vitamin(s)/mineral(s)/vitamin(s) and mineral(s), a factor/factors in the maintenance of good health
Weight management	
776	Aid/assist abdominal fat loss
777	Contribute to weight loss (with energy restricted diet)
778	Enhance/promote weight gain
779	Enhance/promote/increase temporary weight loss
780	Help decrease/reduce body weight

S/N	Claim
781	Help enhance/improve/promote/increase healthy body fat/muscle composition
782	Help enhance/promote calorie burning
783	Help enhance/promote/increase body fat loss
784	Help enhance/promote/increase lean body mass
785	Help enhance/promote/increase weight loss
786	Help improve/promote body metabolism/metabolic rate
787	Help in the maintenance of a healthy body weight
788	Help in the maintenance of lean body mass
789	Help maintain healthy metabolism
790	Help maintain weight after weight loss
791	Help maintain/support healthy Body Mass Index (BMI)
792	Maintain/support abdominal fat loss
793	Maintain/support body metabolism/metabolic rate
794	Maintain/support calorie burning
795	Maintain/support healthy body fat/muscle composition
796	To be used with a program of reduced intake of dietary calories and increased physical activity (if possible) to help in weight management
797	To be used with a program of reduced intake of dietary calories and increased physical activity (if possible) to help in weight management by reducing carbohydrate cravings
Women's health	
798	[Traditionally used as] Female tonic
799	[Traditionally used as] Post partum tonic
800	[Traditionally used as] Uterine tonic/Enhance uterine health
801	[Traditionally used to] Decrease/reduce heavy menstruation/periods
802	[Traditionally used to] Decrease/reduce/relieve excessive breast milk flow
803	[Traditionally used to] Decrease/reduce/relieve hot flushes associated with menopause
804	[Traditionally used to] Decrease/reduce/relieve menstrual cycle irregularity/irregular periods
805	[Traditionally used to] Decrease/reduce/relieve menstrual spasms/cramps*
806	[Traditionally used to] Decrease/reduce/relieve mood changes/mood swings associated with premenstrual tension
807	[Traditionally used to] Decrease/reduce/relieve moodiness/mood swings associated with menopause
808	[Traditionally used to] Decrease/reduce/relieve morning sickness
809	[Traditionally used to] Decrease/reduce/relieve symptoms of menopause
810	[Traditionally used to] Decrease/reduce/relieve symptoms of menstruation
811	[Traditionally used to] Decrease/reduce/relieve symptoms of premenstrual tension
812	[Traditionally used to] Enhance/improve/promote/increase breast milk production
813	[Traditionally used to] Help decrease/reduce/relieve night sweats associated with menopause
814	[Traditionally used to] Help decrease/reduce/relieve symptoms of mild mastitis while lactating/breastfeeding
815	[Traditionally used to] Help prepare the body for labour

S/N	Claim
816	[Traditionally used to] Help temporarily decrease/reduce/relieve excessive vaginal discharge
817	[Traditionally used to] Improve menstrual flow
818	[Traditionally used to] Maintain/support/regulate healthy menstrual cycle
819	[Traditionally used to] Promote menstrual flow
820	[Traditionally used to] Reduce breast milk production
821	[Traditionally used to] Soothe/relieve sore, cracked nipples
822	[Traditionally used to] Stop the production of breast milk (antigalactagogue)
823	Contribute to maternal tissue growth during pregnancy
824	Enhance/promote healthy foetal development
825	Help enhance/promote maternal health
826	Help enhance/promote maternal postnatal health
827	Help enhance/promote preconception health
828	Help enhance/promote uterine health
829	Help maintain/support healthy foetal CNS/brain development
830	Help prepare the body for pregnancy
831	Help support foetus growth and development
832	Help support/promote healthy estrogen metabolism/balance
833	Help support healthy mood balance during menopause
834	Increase maternal folate status
835	Maintain/support breast milk production/lactation
836	Maintain/support female healthy hormonal balance
837	Maintain/support female healthy hormonal balance during the reproductive cycle
838	Maintain/support healthy female hormonal balance during menopause
839	Maintain/support healthy foetal development
840	Maintain/support healthy pregnancy
841	Maintain/support maternal health
842	Maintain/support oestrogen hormone levels
843	Maintain/support ovarian health
844	Maintain/support placenta health/growth
845	Maintain/support preconception health
846	Maintain/support uterine health
847	Maternal intake contribute to normal brain development of the foetus and breastfed infants
848	Maternal intake contribute to normal development of the eye of the foetus and breastfed infants
