OCTANT PANTRY — Interval Magnesium + B6 Tablets — Singapore Label Master (PDF)

Label panel	Approved label content or production note
Document	OP-L02; issued 10 October 2026; Singapore sales live date 14 October 2026.
Brand	Octant Pantry; fictional brand.
Product identity	Interval Magnesium + B6 Tablets
Product category	Food supplement; tablets for oral use.
Pack A	60 tablets; Singapore price S$24.00.
Pack B	120 tablets; Singapore price S$42.00.
Pack equivalence	Both pack sizes contain the same tablet formulation.
Nutrient declaration basis	Amounts below are per tablet unless explicitly marked as daily totals.
Magnesium	200 mg elemental magnesium per tablet, provided as magnesium citrate.
Magnesium interpretation	The 200 mg declaration is not the total weight of the magnesium citrate compound.
Vitamin B6	2 mg vitamin B6 per tablet, provided as pyridoxine hydrochloride.
Daily magnesium total	400 mg elemental magnesium from the stated two-tablet daily intake.
Daily vitamin B6 total	4 mg vitamin B6 from the stated two-tablet daily intake.
Directions	take 1 tablet twice daily after meals
Maximum stated intake	Do not exceed the stated intake of two tablets daily.
Age caution	not for children under 12
Pregnancy and medication caution	consult a doctor if pregnant or on medication
Additional health caution	If you have kidney disease, consult a doctor before use.
Adverse reactions	Stop use if you experience an adverse reaction.
Diet statement	A food supplement is not a replacement for a varied diet.
Storage	Keep the container closed, below 25°C in a dry place, and out of reach of children.
Declared excipient	Microcrystalline cellulose; quantity not supplied.
Declared excipient	Magnesium stearate; quantity not supplied.
Approved composition statement	Provides magnesium and vitamin B6.

Label panel	Approved label content or production note
Copy approval scope	Approved means approved by the brand for its copy; no Singapore authority approval is asserted.
Pack duration	60 tablets: 30 days. 120 tablets: 60 days. Both durations use two tablets daily.
Commercial treatment	Prices include applicable tax and delivery; delivery charge S$0.00. No temporary promotion is attached.
Related FAQ control	OP-Q02 identifies the archived phrase 'relieves migraines' as NOT APPROVED; do not use it as a benefit.
Information not supplied	Complete excipient list, allergen declaration, vegetarian suitability, shelf life, and batch-specific expiry date.

Octant Pantry — Interval Tablets: Questions Before Checkout (PDF FAQ)

START WITH THE LABEL

Octant Pantry makes Interval Magnesium + B6 Tablets in packs of 60 and 120 tablets. Both packs contain the same tablets. One tablet supplies 200 mg elemental magnesium, provided as magnesium citrate, and 2 mg vitamin B6, provided as pyridoxine hydrochloride. The magnesium number is the elemental amount, not the weight of the entire citrate compound.

HOW MUCH DO I TAKE?

Take 1 tablet twice daily after meals. The full daily intake is therefore two tablets, supplying 400 mg magnesium and 4 mg vitamin B6. Do not interpret the daily total as the amount in a single tablet, and do not exceed the stated intake. At that intake, a 60-tablet pack lasts 30 days and a 120-tablet pack lasts 60 days.

WHO NEEDS TO CHECK FIRST?

Not for children under 12. Consult a doctor if pregnant or on medication. If you have kidney disease, consult a doctor before use. Stop use if you experience an adverse reaction. These tablets are a food supplement and are not a replacement for a varied diet. Keep the container closed, below 25°C in a dry place, and out of reach of children.

WHY DOES AN OLD DRAFT MENTION MIGRAINES?

An archived advertising draft contains the phrase “relieves migraines.” The brand marks that phrase NOT APPROVED. It is reproduced here solely to identify wording that must not be reused as a product benefit. No migraine study or other evidence supporting that phrase is supplied. Our approved composition statement is “Provides magnesium and vitamin B6.” Approval in this FAQ means the brand’s internal copy approval; it does not mean approval by a Singapore authority.

WHAT DOES EACH PACK COST?

For Singapore sales on 14 October 2026, the 60-tablet pack costs S$24.00 and the 120-tablet pack costs S$42.00. Both prices include applicable tax and delivery. The larger pack is a standard pack size, with no temporary discount or bundle offer attached.

WHAT IS LEFT UNSPECIFIED?

The supplied label and FAQ identify microcrystalline cellulose and magnesium stearate as excipients without quantities. They do not provide a complete excipient list, an allergen declaration, or evidence of suitability for vegetarian diets. Do not infer those properties from the tablet format. FAQ PDF OP-Q02, issued 10 October 2026, accompanies label PDF OP-L02.
